BODY OF WORK

We're loving this series of nude vases by Jones & Co. Dress your reception desk or treatment room with a few floral sprigs for a fun and modern feel. Jones & Co customercare@jonesandco.com.au

SAVE THE DATE

Aesthetic device company, Cutera are due to host their University Clinical Forum (CUCF) across two days of face-to-face lectures and keynote presentations at the Sofitel Hotel in Sydney's Darling Harbour.

Running from 6th-8th May, the event aims to educate industry attendees on how to maximise their treatment offerings using Cutera devices.

The event will include talks by leading dermatologist Professor Greg Goodman AM, Dr Heather Jenkins of The Skin Lab and Kelly George RN of Kelly George Aesthetics. Tickets are available to purchase now via www.cucf.com.au.

SMOOTH MOVE

Explore the magic of Chinese gua sha to drain the lymph, relieve tension stored in the face and relax frown lines and puffiness. Ere Perez's 100 percent clear crystal quartz is a modern approach to the must-have beauty tool, used in conjunction with your favourite cream or oli. Further product penetration is an appealing bonus. Pop them in the freezer for a sensational finish to your next in-salon or at-home facial. Ere Perez 02 9130 3582

TREND WATCH

"For 2022, we're moving towards things that are natural – natural ingredients, natural and sustainable products, natural beauty! More and more people are looking to move away from the overdone 'MAFS' look – pouty bee-stung lips, overdone cheeks and unmovable foreheads – and are looking to much more simple and subtle looks. There is a real cult following developing for treatments like radio-frequency (think Fractora and Morpheus 8) that are designed to get your body to build its own collagen and provide a really natural and soft lift." – Madeline Calfas, founder of www.thewellnessgroup.net.au.

COLLAGEN CRAVING

Boost collagen production from the inside-out in your bid to firm up the skin. Packed with key ingredients like antioxidant-rich grape seed extract, Optim MSM and Zinc suspended in a capsule format, Advanced Nutrition's Skin Collagen Support is easy to slot-in between zoom meetings.
